"How To Text Like A Teenager"

1. Less is always more. The less letters the more teenagery it is
2. Normally while texting you are also doing other things like watching your favorite TV show and writing an English essay that was due yesterday on a book you basically read.
3. Punctuation is for suckers. Same applies for capital letters.
4. Abbreviations are always great to use. Here's a list of ones you might find in a text:

Ttyl (talk to you later)
Lol (laugh out loud)
Rofl (rolling on the floor laughing)
Rn (right now)
lkr (I know right)
lk (I know)
Omg (oh my god)
Wtf (what the fuck)
Omgf (oh my fucking god)
Lmao (laughing my ass off)
Lmfao (see above but add fucking)
lly (I love you)
Lmk (let me know)
Smh (shaking my head)
Nvm (never mind)
Otw (on the way)
Ofc (of course)
Yolo (you only live once)
Af (as fuck)
FYI (for your information)

Any letter or number that sounds the same as a word (for example r, u, b, y, 4)

5. Shorten words as much as possible. If you were trying to say, "Tonight I am going to write my essay. It's about Benjamin Franklin. You might actually say "2nite im gonna rite my essay issa bout ben franklin"
6. Auto correct is a plague sweeping many teens lives.
7. There are about a 100 different ways to say YES.
